(Cumulative years)

 **Information Technology & Web Development:**
7 years 3 months

 **Education:**
6 years 8 months

 **Enterprise Environments:**
5 years 6 months

 **SME / Startup Environments:**
4 years 10 months

Jun 2024 – Nov 2024

(6 months)

(Full time contract term)

Digital Product Owner

Maxis Broadband | Kuala Lumpur, Malaysia

Short term position to relieve a staff member who was going on maternity leave.

- Develop and maintain a product roadmap for Q3 and Q4 2024.
- Collaborate with various stakeholders to gather requirements and ensure alignment with business goals.
- Create, maintain, and prioritize the product backlog to ensure that the development team is always working on the most valuable tasks.
- Write user stories, acceptance criteria, and requirements.
- Work closely with the QA testers, UX/UI designers and development team to clarify requirements and remove obstacles to ensure timely delivery of features.
- Conduct user research, gather feedback and iterate on designs before development begins.
- Analyze product performance using analytics tools and data to make informed decisions about product enhancements and features.
- Collaborate with business teams to develop and execute go-to-market strategies for new product launches.
- Work to resolve customer issues and ensure a high level of customer satisfaction.
- Regularly update stakeholders on product progress, upcoming features, and any challenges faced.

Aug 2022 – Dec 2023

(1 year 4 months)

(Term hire)

Platform Designer

Ace Resource Advisory Services | Kuala Lumpur, Malaysia

Work in a UX team of 6 designers which supports multiple business groups under one holding corporation.

- Assigned to a business group specialising in palm oil production.
- Participated in requirement gathering workshops for 4 different projects.
- Delivered 4 Figma prototypes for projects.
 - Proof of concept mobile & web app for grading fresh fruit bunch.
 - Web & mobile app for monitoring tree health using multispectral imaging.
 - Web & mobile app for palm oil seed production.
 - Web & mobile app for R&D activities.
- Left early from my 2-year contract to find a more flexible working environment.

Jan 2021 – Mar 2021

(3 months)

UI/UX Developer

Affin Bank | Kuala Lumpur, Malaysia

Plan and manage Affin Group web consolidation project.

- Managed a junior UX designer who was handling multiple projects.
- Planned and executed UX workshops for all stakeholder levels for the digitalisation of Affin Bank's services.
- Participate and provide feedback for vendor's solution presentations.
- Decided not to proceed after probation due to work culture mismatch.

Jul 2020 – Aug 2020

(2 months)

Senior Frontend Engineer

Kaodim | Selangor, Malaysia

Maintain and build new features in the existing system.

- Technology stack: Ruby on Rails, ReactJS, SCSS.
- Decided to leave to take care of my then sick father.

Jun 2019 – Feb 2020

(9 months)

UI/UX Designer

Rev Asia | Selangor, Malaysia

Redesign says.com from the ground up.

- UX research on how to optimise reader's and writer's experiences for news portals.
- Revamp says.com UI.
- Research on optimising workflow for the tech team across multiple news portals.
- Left after being called back by the UI/UX team in DXC Technology. Unfortunately the pandemic situation then has caused all new hirings to be frozen.

May 2018 – May 2019

(1 year 1 month)

UI/UX Designer

DXC Technology | Selangor, Malaysia

- Reports directly to the Director of Engineering / Automation.
- Design UI/UX for SAAS-like applications based on user stories provided by BAs.
- Design and build concepts for marketing pages.
- Get feedback from stakeholders from different regions of the world.
- Left due to contract not getting renewed due to internal restructuring.

Oct 2017 – Mar 2018
(6 months)

IT Manager (acting Chief Technical Officer)

Pacific Trustees Berhad | Kuala Lumpur, Malaysia

Temporary position to help a friend manage a job listing app that I built for his company.

- Manage the IT department for the group of companies which includes one senior and one junior IT executive.
- Managed business disaster recovery plan.
 - Liaise with service providers and present solutions directly to the Board of Directors.
 - Successfully planned and executed a disaster recovery drill.
- Worked with other departments on IT related matters.

Oct 2015 - Oct 2017
(2 years 1 month)
